

Pink Ladies Remote League

This league is a sample remote league for possibly a nation-wide remote Pink Ladies league. In a nutshell here are the facts: This league will start on April 4th. League will be played on Thursday evenings 7 pm central time, if this time doesn't work for you that is why EVERYONE included cell numbers on the entry sheet, please call the other team and communicate, keep in mind this league is in 2 time zones. There is a 7 day deadline to make it up if it is not played on league night. There are 8 teams per division, the league will run 7 weeks, there is not a hcp. The prepay of league is to be sure we don't have any quitters and if you have a sub they only need to pay to play. The league fee is \$5 every week equaling \$35 per player, I suggest looking for a local business to sponsor you or your team for this league. If you have a minor that you want on your team, ask the bar owner for permission please. The payouts from this league will be paid by the team finishing First through 8th, EVERY team will get \$ back. Pink is not normally about competition; it is about comrade and support. That is why this is a sample league.

If you have trouble with your dart board please call your dart league coordinator, you might want to get to the bar early and make sure your board is ready to play.

When this league has ended, we will mail checks to your operator from this league. What you do with the funds is up to you, some plan on putting the \$ in the chapter account, this is where a sponsor will help you decide.

Flash Point has designed Pink Ladies flags and table runners for you, you can add your chapter name to them with no extra fee. This would be nice to hang on the table behind you for chapter representation! Your opponent will be able to see it on the dart board.
